

30 January 2003

We would like to thank Samantha, and the rest of Equities Corp., for helping us to fulfill our dreams of owning our own home.

Throughout the years, we watched family and friends purchase their homes. Each time we felt our dream slip further away. They would tell us, be patient, your turn will come. So, throughout the next twenty years of marriage, we waited. We raised a family and pursued our careers. We rented various dwellings and watched our money get thrown away. My husband finally said he would find a way for us to get our dream. He wanted our children to have a place to call home.

That's how we came to Equities. We were able to put a small amount of money down on a home that would become ours in two years. The payments we made were affordable, and it gave us a sense of pride. The group helped us with all our and any other questions we had. Samantha helped us learn how to become "homeowners"; we were able to work in the home and take care of it like it was already ours. You can't express how it feels to be able to do something in your home without waiting for approval from a landlord.

Equities Corp. serves a need for many people who qualify. The program is easy, stick to it, and before you know it - The home is yours.
